

Dear Colleagues;

The DHHS-based ***NH Connections Information System (NHCIS)*** is currently experiencing a short-term ***shutdown due to technical issues***. Presently, you will not be able to use the system and therefore, temporarily, have no access to your program profile, licensing information, APRPA/CCASP Grant tiles including applications, award letters, agreements and invoices, among other system based applications.

Please be aware this temporary shutdown will not impact the ARPA application period or review period - you will not miss out on applying for funds. We will be in touch if the review period closing 11.29.2021 will be extended. As always, please keep an eye on NH Connections: Financial Resources for ARPA/CCASP updates.

We will notify you by email and post on the NH Connections website as soon as the issues are resolved. It is not necessary to send us an email regarding the inaccessibility of the system as we are fully aware.

Meanwhile, thank you so much for your patience and understanding.

Debra Nelson, Bureau Chief  
Dianne Chase Assistant Bureau Chief
